MEMORANDUM FOR : [REDACTED]
SUBJECT : Face-plate Heat

25X1A9a

1. You have received a copy of [REDACTED] memo which presents the Air Force position regarding our suggestion for a switch to operate emergency face-plate heat. I have done no further researching on this subject during your absence but have discussed this with [REDACTED]. We still are of the opinion that a switch is desirable.

25X1A9a

2. Lacking the results of your findings and your discussions with [REDACTED] I am leaving for my trip. I would advise that we pursue a separate course and develop a toggle switch for emergency face-plate heat if the Air Force refuses to honor our request. Please see Mr. Bissell on this subject at your first opportunity in order that we may get moving on whatever course of action the two of you may at that time decide upon.

Doug: This may involve some sort of additional call on Proj. funds, if carried out. I can't believe that it's a major item, however -
Anything up to & including 154 RBW
will be OK
